RE: ASBESTOS AWARENESS LETTER

Federal law requires that every school, including the Texas School for the Blind and Visually Impaired (TSBVI), report annually as to the presence of asbestos in the school's facilities. Experts certified in asbestos abatement have verified that the school has small quantities of asbestos in some of its building materials, in some buildings on campus, but their inspection reports that the asbestos is in such small quantities as to present virtually no health risk to employees or students.

TSBVI implemented its management plan on July 9, 1989 and has been conducting a six-month periodic surveillance of all asbestos-containing building materials. This periodic surveillance and inspection are conducted to provide a continuous assessment to assure safety conscious management of asbestos-containing materials.

The detailed plan and updated information for each building and the entire school is open to public review. Larry Williamson maintains our records as the Asbestos Program manager. If you have any questions, please contact me at 512-206-9126.
