Students with visual impairments learn best from engaging their environment, moving within it, and exploring their surroundings. By participating in athletic events, students will develop and learn concepts that last a lifetime.

Region 10 Education Service Center staff and the Lions Clubs International 2-X1 started the Sports Extravaganza in 1991 in response to the need for an increased emphasis on recreation and lifetime leisure skill development for blind and visually impaired children. Now nearly 300 blind and visually impaired students from 55 school districts in Texas, Colorado, New Mexico and Alabama are invited to Sports Extravaganza each October in Irving, Texas.

Students
“Students with visual impairments learn best from engaging their environment, moving within it, and exploring their surroundings. By participating in athletic events, students will develop and learn concepts that last a lifetime.”

Parents
“They definitely take away some skills from here that they use later on as far as competitiveness and learning how to do things. Their self esteem goes up quite a bit when they start playing normal games in their school. They remember these events and say I can do that.”
