Finding Wheels: Strategies to Build Independent Travel Skills for Those with Visual Impairments

Presenter
Anne L. Corn, Ed. D., Research Professor (Volunteer), Department of Ophthalmology, University of Cincinnati and Co-author of Finding Wheels

Anne123c@gmail.com

Developed for
Texas School for the Blind & Visually Impaired Outreach Programs
What is *Finding Wheels*?

- A guide to assist travelers in exploring transportation options now and in the future
- A collection of ideas for professionals and family members to support travelers
- An alternative to driver’s education class

A tool to augment ECC instruction

Who is *Finding Wheels* for?

- Travelers in their teens or early 20s
- Professionals working with travelers with visual impairments
- Family members of travelers

What does *Finding Wheels* include?

- Ten chapters on a wide range of travel topics
- Scenarios of travelers in different communities
- Activities that allow travelers to reflect and explore topics included in the book
- Objectives professionals will find valuable for instructional planning

How can *Finding Wheels* be used?

- On your own
- In a group
- As a family
- For an after school or enrichment program
- As part of instruction by professionals in schools or rehabilitation settings
